NeuroTouch Simulator

Sim-Welding

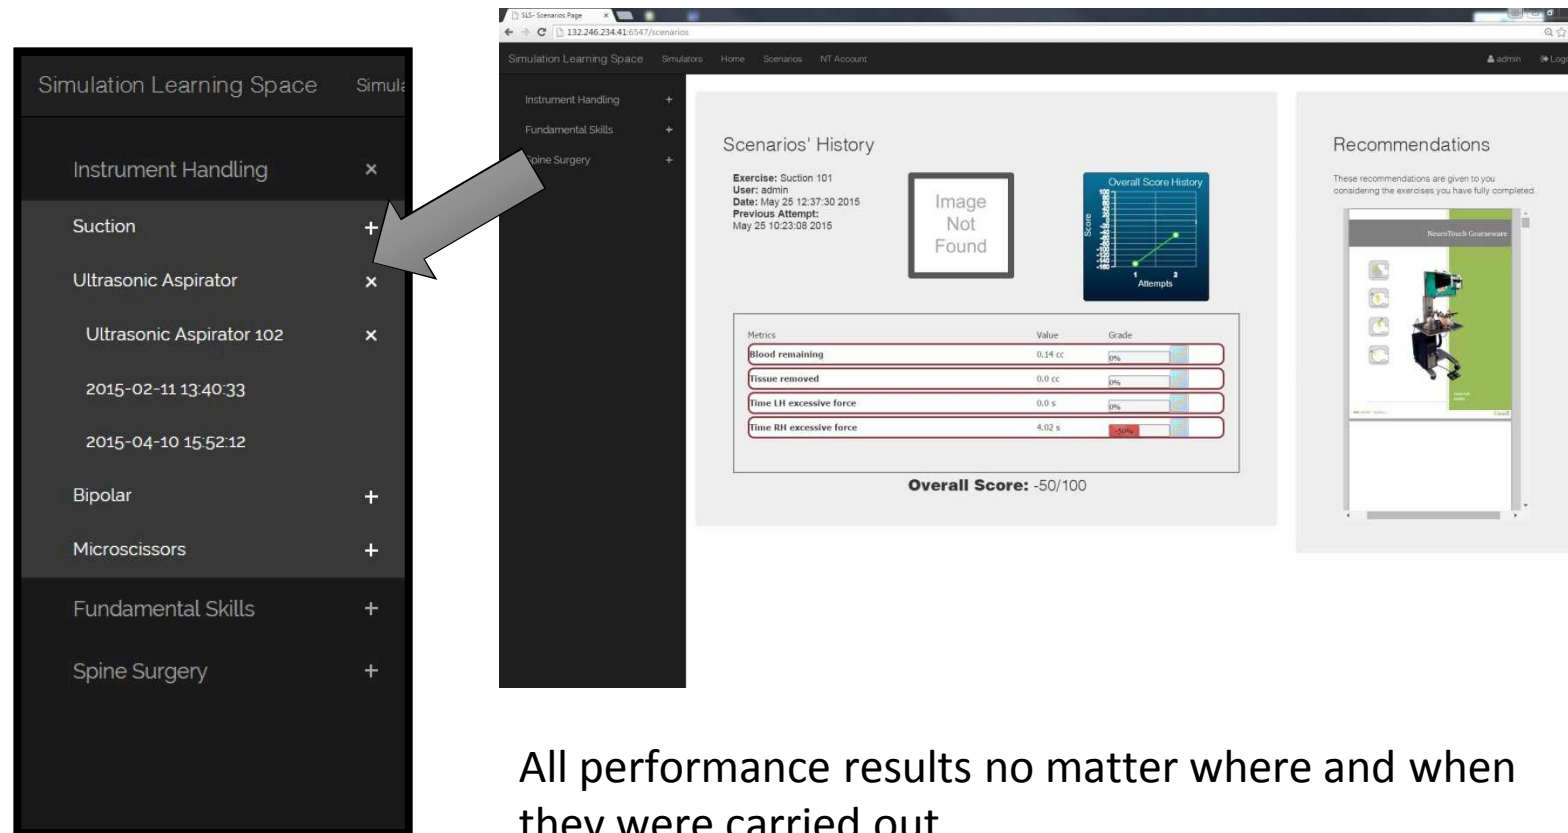

LPSS-Sim Project Overview

Combining Experiences

One place for all simulation experience

All performance results no matter where and when they were carried out

1. Content Knowledge vs Practice

Criticisms of a Focus on Content...

- “research should move beyond a narrow focus on the ‘know–do gap’ to cover a richer agenda...”
 - situation-specific practical wisdom (phronesis)
 - tacit knowledge shared among practitioners (‘mindlines’)
 - complex links between power and knowledge; and
 - macro-level knowledge partnerships

Immersive Environments...

Two Approaches...

Two Approaches...

Defines an ideal state

Content

Practice

TEST

Person tests you

Defines a desired state

Practice

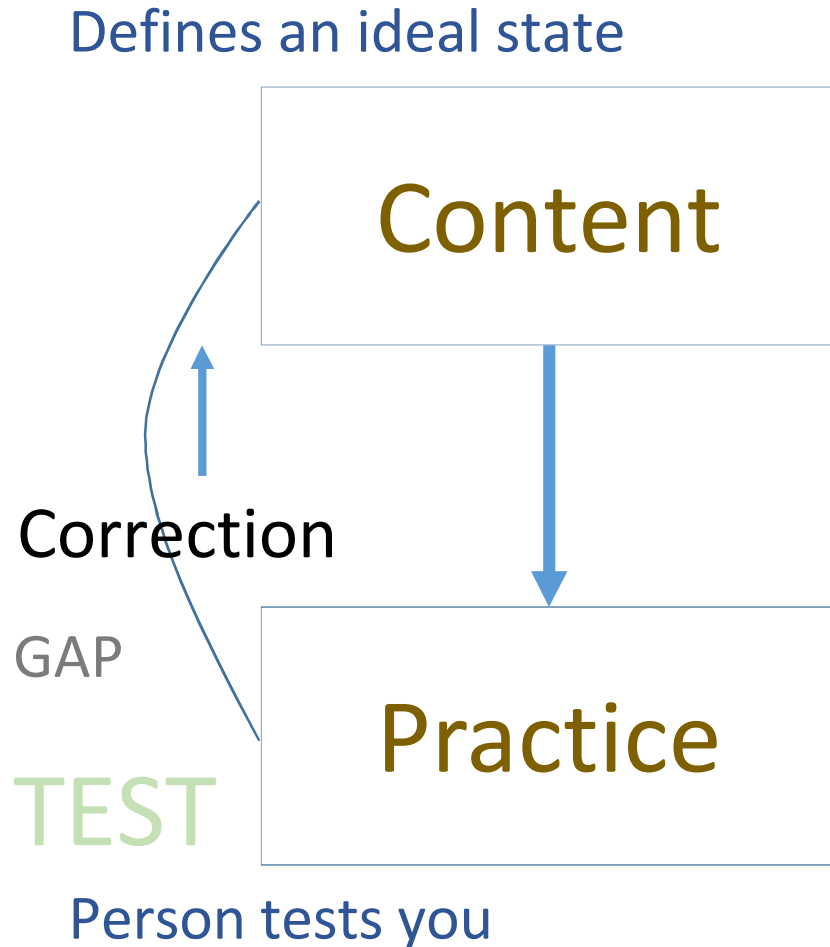

Content

TRY

Person helps you

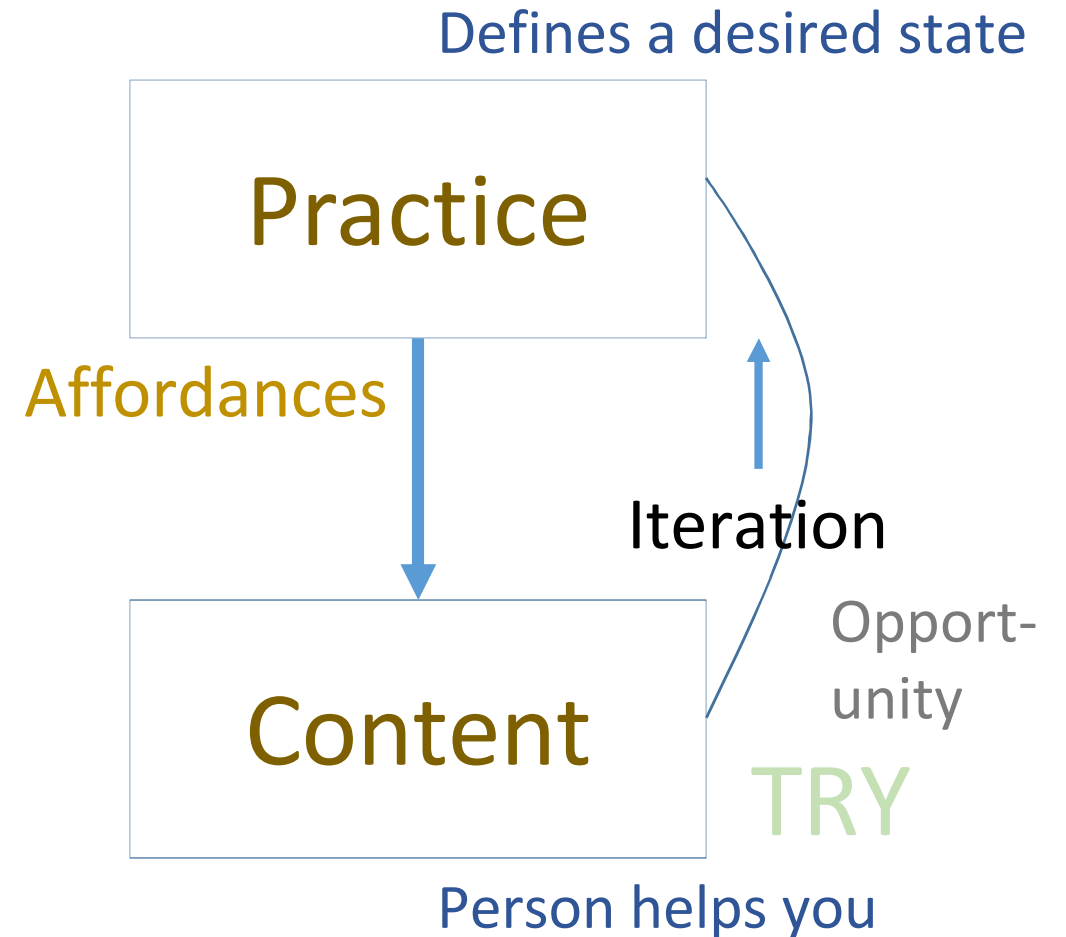

Two Approaches...

Library

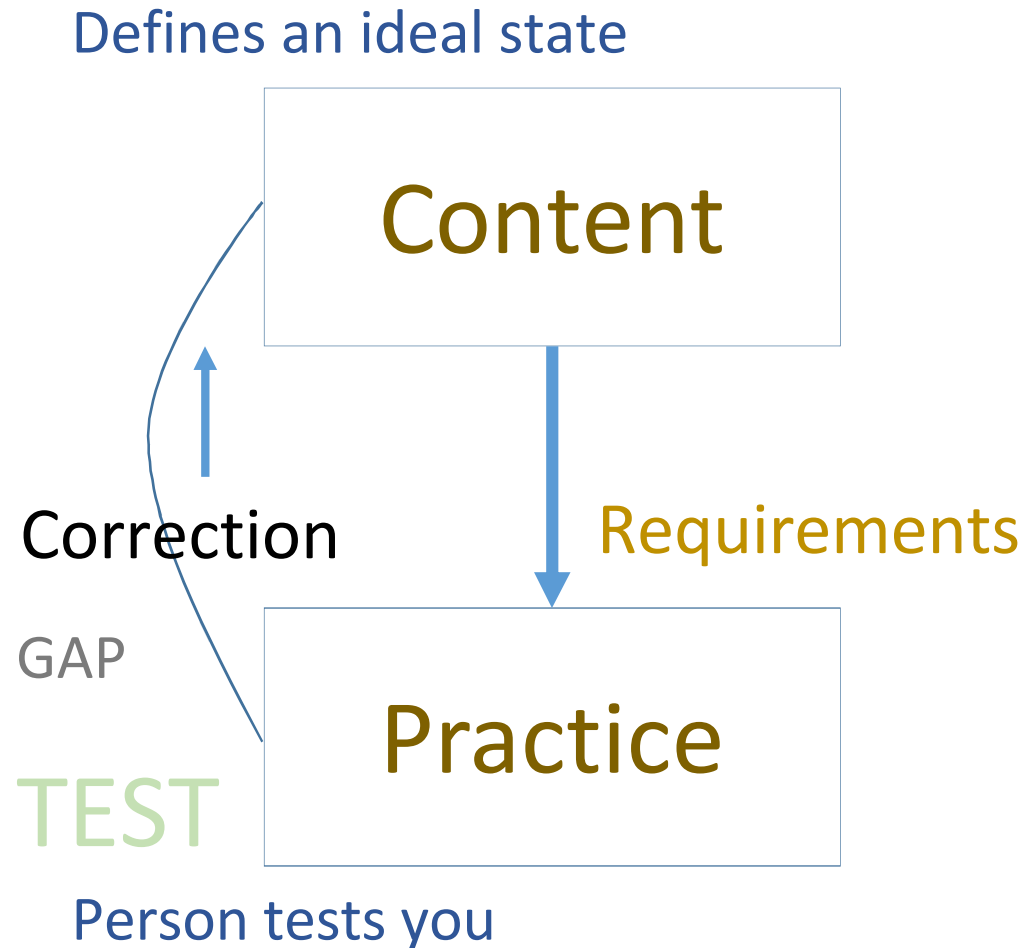

Environment

Personalized

We do for you

Personal

You do for yourself

3. The Case of the cMOOC

How to Create a cMOOC

- It's like creating a network
- Don't centralize
- Concentrate on the creation of links

We use social networks...

Figure 1. Biological Neuron

... to create personal knowledge

Primary Course Components

- Wiki – to assist in planning, topics, guests, etc
- Email list – for announcements and mass communications
- Course Blog – for daily posts
- Synchronous Communications + Video

MOOC Design

- Course structure – a series of topics
 - The instructors will not ‘teach’ the topics, they ‘investigate’ or ‘work through’ the topics (model and demonstrate)

Additional Course Components

- For Students – *any* online communications system, including
 - Blogs – Blogger, WordPress, Tumblr
 - Social Network – Facebook, Twitter, Google+
 - Content site – Google Docs, Flickr, Instragram
 - Aggregator – Feedly, OldReader, (new) Bli RSS

Process

- Each Week
 - Conversation or activity with guest
 - Discussion and reflection
- Each *Day*
 - Aggregate student content
 - Share via web site & newsletter

gRSShopper

How to Learn in a cMOOC

Learning is a process of immersion into a knowing community

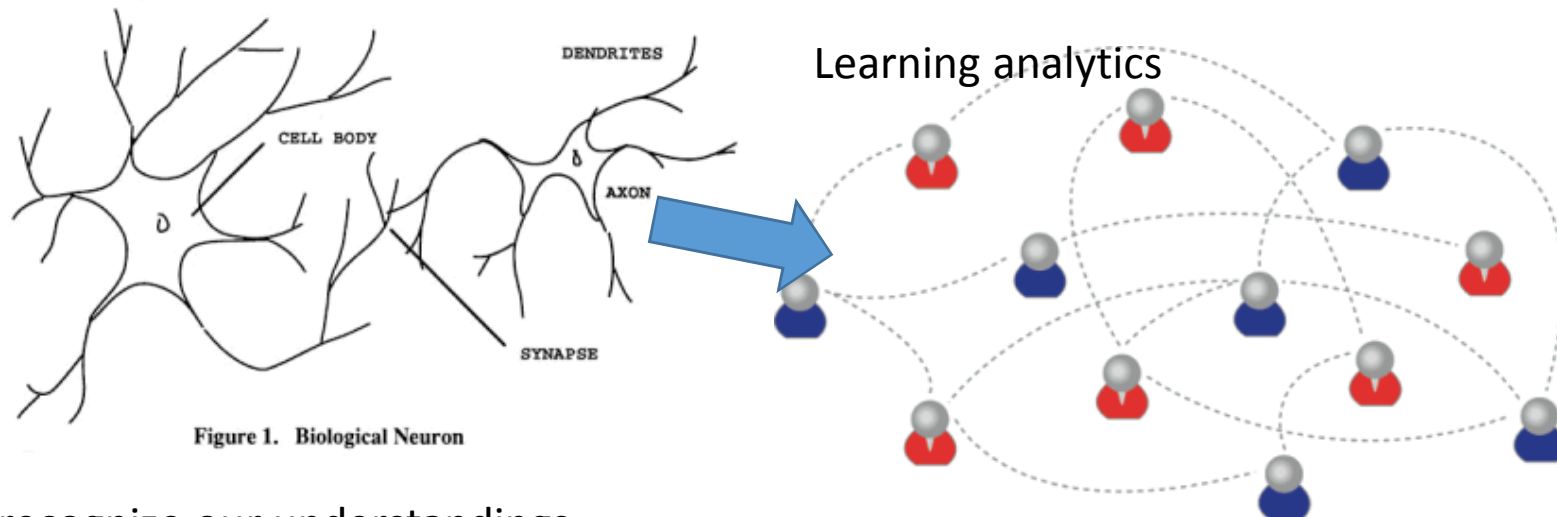

<http://www.tonybates.ca/2012/03/03/more-reflections-on-moocs-and-mitx/>

Learning is a process of *recognizing* and *growing into* or *becoming* an instantiation of those values...

How to Evaluate Learning

- Learning is not possession of a collection of facts, it's the expression of a capacity
- Learning is recognized by a community of experts in a network

We recognize our understandings...

...by the way we use them in our social network

xLearning vs cLearning

contents

engagement

networks

5. Learning and Performance Support Systems

LPSS is Built Around the Personal Learning Record

This is a *new* type of data – we call it the *personal graph*.

Each person has their own *private* personal graph.

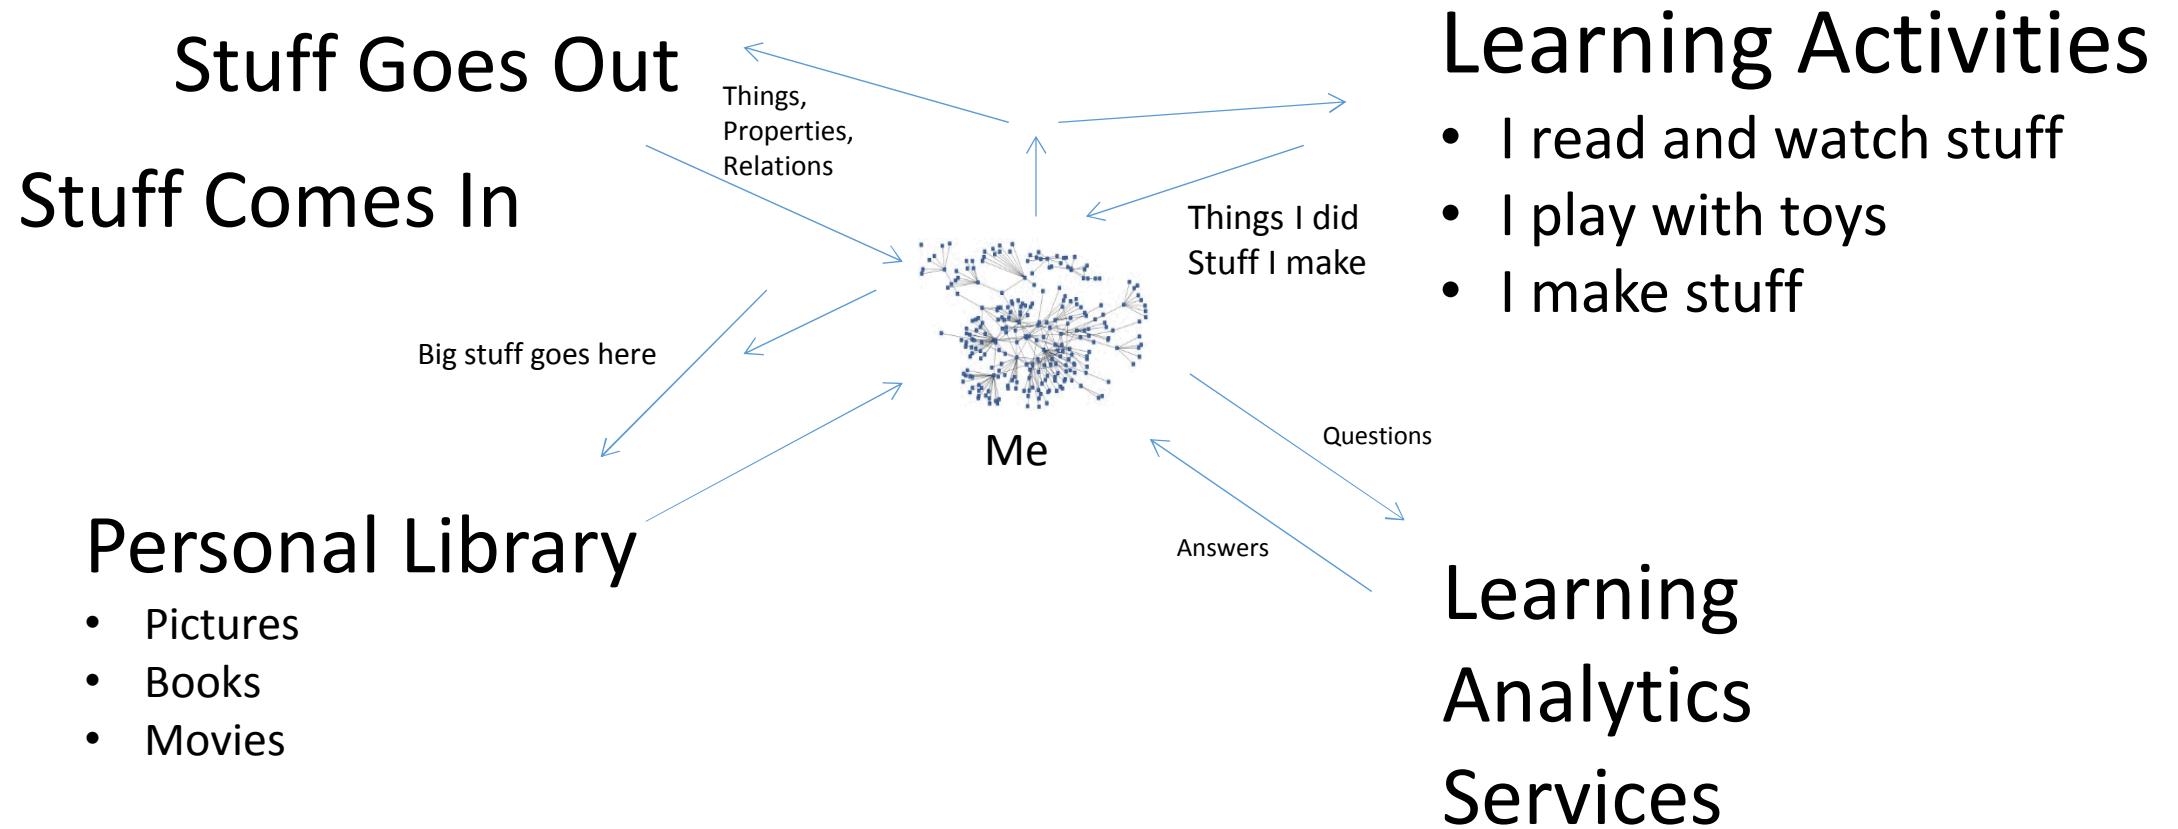

Me

The PLR contains all a person's learning records, including:

- certificates, badges and credentials
- activity records, test results, scores
- Assignments, papers, drawings, things they create

LPSS is Built Around the Personal Learning Record

Personal Learning Record

The Personal Learning Record – data owned by the individual, shared only with permissions

<http://halfanhour.blogspot.de/2014/12/eportfolios-and-badges-workshop-oeb14.html>

Personal Learning Record

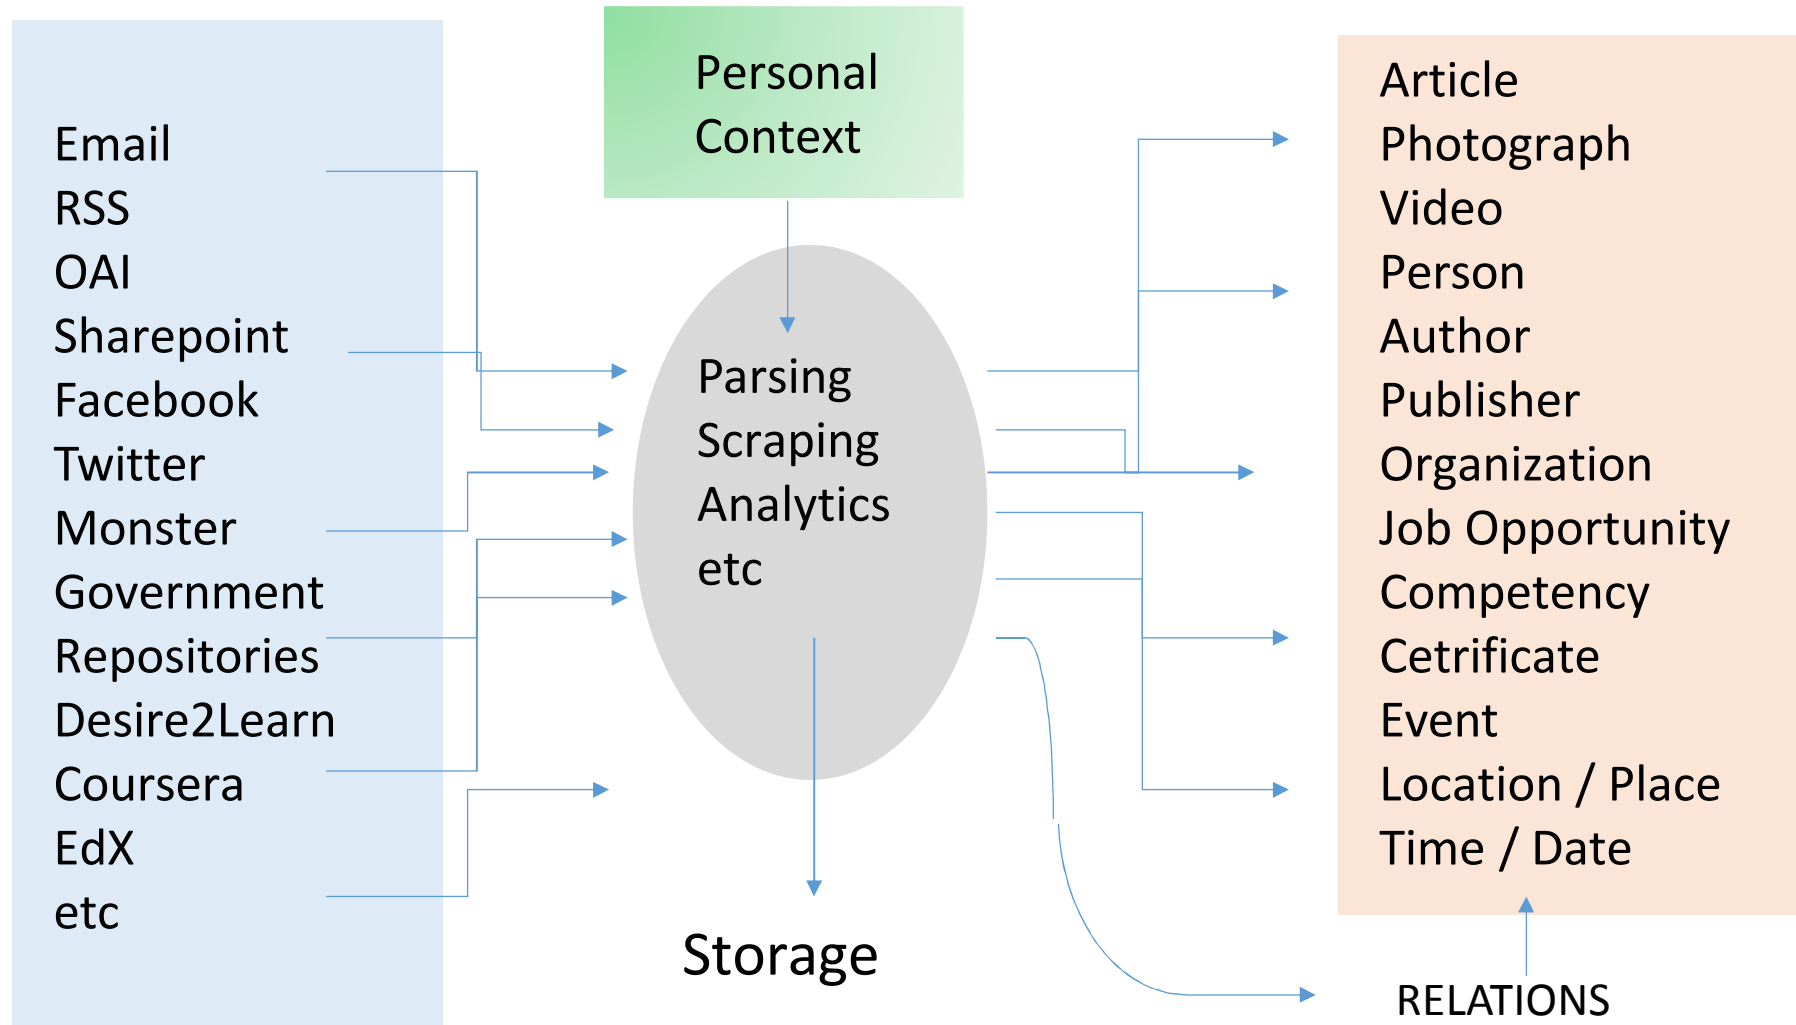

Resource Repository Network

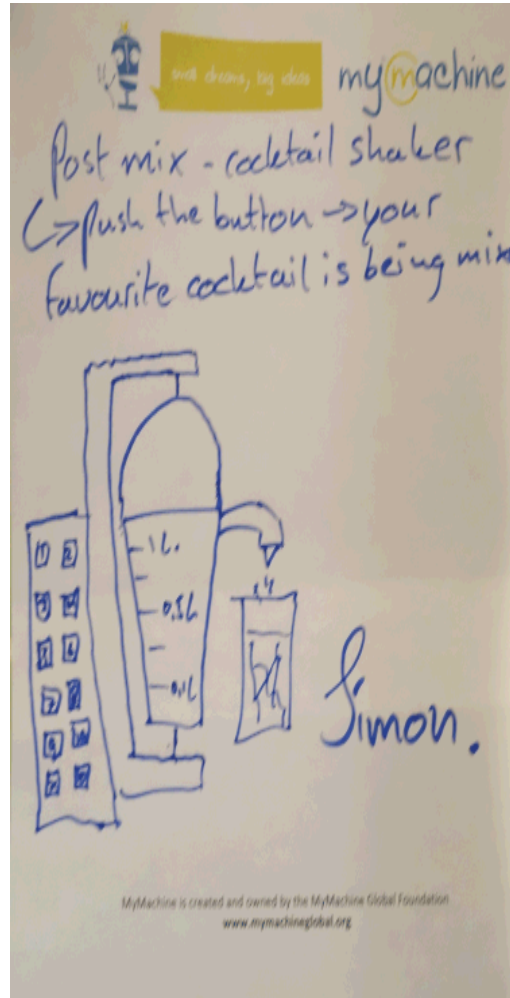

- Manage and discover list of sources and resources
- Maintain authentication and credentials
- Support APIs and metadata standards
- Gather, analyze and sort resources and/or metadata

RRN Aggregation and Storage

Personal Learning Assistant

Projection of learning services into multiple platforms

Personal Learning Assistant

- Collect contextual information for system
- Display resources of various formats, including SCORM, LTI, etc.
- Support (scaffolded) authoring environments
- Project LPSS capacity into external software and devices

PLA: Collecting xAPI from Med Sims

https://www.flickr.com/photos/stephen_downes/15710336207/

<http://www.nrc-cnrc.gc.ca/eng/rd/medical/>

Personal Analytics

Automated Competency Recognition and Development

- Import or create competency definitions
- Analyze interactions for skills and learning gaps
- Support development of learning plans
- Provide resource and service recommendations

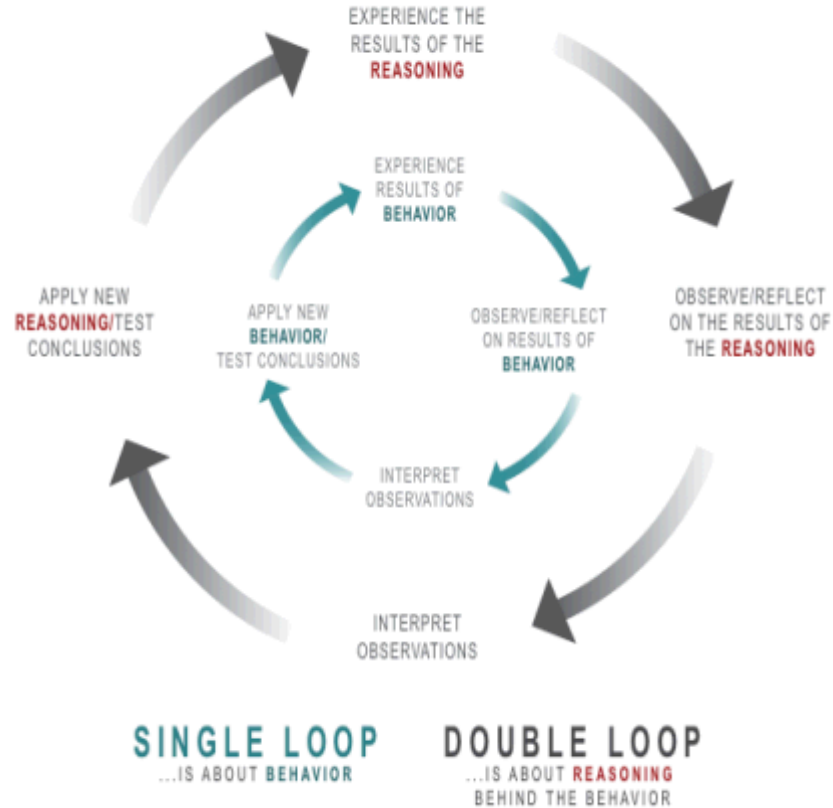

Analytics and Big Data

6. Expanding LPSS

Implementation Projects

Ultimately,
the objective
is to support
individual
learning in a
network

OIF – MOOC-REL

The screenshot shows the homepage of the REL 2014 MOOC. The header is dark blue with the title 'REL 2014 - Pour une éducation libre' in white. Below the header is a navigation bar with links: ACCUEIL, VOTRE COMPTE, COMPTES RENDUS, PARTICIPER, SYNDICATION RSS, and ARCHIVES. A message indicates the user is not connected, with links for 'Connexion' and 'Inscription'. The main content area features a large graphic on the left with the text 'Réutiliser, retravailler, recombinaison, redistribuer' and icons of people and documents. To the right, the title 'Réutiliser, Retravailler, Recombiner, Redistribuer – 4R des REL pour une Éducation libre' is displayed in green. Below this, a welcome message states: 'Bienvenue à votre Cours en Ligne Ouvert et Massif (CLOM) de l'Organisation internationale de la Francophonie portant sur les ressources éducatives libres (REL).'. It also mentions the start date (March 3, 2014) and duration (nine weeks). A sidebar on the left contains a menu with 'INTRODUCTION' and '1. DU CLOM CONNECTIVISTE ET FONCTIONNEMENT DE CE COURS'. The main content area also has a section titled 'Introduction au CLOM REL 2014'.
